All proceeds from the 50/50 raffle will go to the family of FDNY Lt. Kevin Fonda (E22/L13) for his medical expenses and recovery. In May 2018, Kevin was rushed to the hospital with bacterial meningitis, which spread to his brain and heart. He has permanent brain and heart damage from the disease. After 3 months in the hospital and rehabilitation, he was able to go home to his wife and 2 young children with 24-hour-a-day care. He was also diagnosed with thyroid cancer, which has spread to his lymph nodes. We are hopeful that with each passing day, Kevin will continue to improve and gain mobility, clarity, and memory.

For questions or more information, call Anne at 845-279-4439.
